PROFESSIONAL SUMMARY:

Product-focused Full Stack AI Engineer (UI/UX | Frontend Engineering | AI Applications) with 3+ years of experience building scalable web applications, responsive UI systems, and modern digital products across enterprise and startup environments. Skilled in **Angular, JavaScript, Node.js, APIs**, cloud deployment, and product design with hands-on experience delivering end-to-end solutions from development to deployment.

Passionate about AI-powered applications, scalable frontend architecture, cloud technologies, digital branding, and startup innovation, seeking to contribute to product-focused Full Stack, Frontend, UI/UX, or AI Engineering roles within fast-growing technology teams.

WORK EXPERIENCE:

UI/UX DEVELOPER

Apr 2023 - May 2026

Niraltek Solutions Private Limited

Chennai, TN, IN

Product-focused engineer responsible for building scalable digital platforms, intelligent UI systems, and customer-centric web experiences for enterprise and IIoT solutions. Contributed across development, UI/UX, deployment, automation, branding, and digital growth while aligning technical execution with product goals.

1. **Product-Focused Engineering:** Built and delivered customer-facing, **scalable web applications, dashboards**, and digital tools aligned with business goals using modern frontend and full-stack technologies.
2. **UI/UX & Experience Design:** Designed and owned end-to-end UI/UX workflows including **wireframes, prototypes, mockups**, and responsive interfaces ensuring intuitive and user-centric product experiences.
3. **Application Delivery & Deployment:** Managed application deployments across cloud and on-prem environments using **Docker, Linux, AWS EC2, WordPress, VMs**, and CI/CD workflows improving development-to-production efficiency.
4. **Digital Solutions & Branding:** Led branding initiatives, SEO optimization, digital campaigns, social media management, and content creation to strengthen product visibility and user engagement.
5. **Technical Documentation & Communication:** Created user guides, system documentation, architecture workflows, presentations, and product documentation enabling teams and clients to collaborate efficiently.
6. **Cross-Functional Ownership:** Worked across development, design, operations, marketing, and product workflows to solve challenges, accelerate delivery, and drive impactful product outcomes.

key takeaways – Frontend Engineering, UI/UX Systems, Product Engineering, Branding, and Product Development.

DOCUMENT SPECIALIST

Jun 2022 – Jan 2023

RR Donnelley (Boston Consulting Group)

Chennai, TN, IN

- Created high-quality corporate PPT decks, technical documentation, and business presentations for global enterprise clients with strong attention to visual clarity and professional standards.
- Specialized in business reports, sales decks, and marketing presentations ensuring impactful storytelling, structured layouts, and brand consistency.
- Collaborated with teams to deliver presentation-ready documents within tight timelines while maintaining accuracy, formatting quality, and professional communication.

key takeaways – Corporate Presentation Design, Technical Documentation, Visual Storytelling, Client-Focused Delivery.

PROJECTS:

DevsBot — IIoT Product Management Platform

Apr 2023 - May 2026

DevsBot, an IIoT-based smart energy and device monitoring platform designed for **real-time industrial monitoring**, automation, and centralized device management. Built responsive dashboards, scalable UI systems, and API-driven workflows focused on usability, performance, and operational efficiency.

Responsibilities:

- Spearheaded designed intuitive UI/UX systems including wireframes, prototypes, mockups. technical implementation for scalable IIoT dashboard systems.
- Developed responsive real-time monitoring dashboards using **Angular and custom grid-based layouts** for device management and analytics visualization.
- Built interactive data visualization components using **PrimeNG, Chart.js, and NgX-Charts** for analytics and monitoring insights.
- Integrated **REST APIs, WebSockets**, and backend services using **Node.js with MySQL** for real-time monitoring and operational workflows..
- Managed cloud and on-prem deployments using Docker, Linux, AWS EC2, and CI/CD workflows ensuring smooth application delivery and scalability.
- Contributed to branding, SEO optimization, content creation, and technical documentation supporting product growth and digital presence.

***Tech Stack --** GitHub (Version Control); Angular (Frontend); JavaScript & TypeScript; Node.js (Backend); MySQL (Database); DigitalOcean (Cloud Hosting); Postman (API Testing); PrimeNG, Chart.js, NgX-Charts (Data Visualization); VS Code (Dev IDE);*

SKILLS:

- **UI/UX & Product Design:**
 - Figma, Adobe XD, Adobe Illustrator, Canva, Wireframing, Prototyping, Mockups, Responsive UI/UX.
- **Frontend Development:**
 - **Angular, JavaScript (ES6+), TypeScript, HTML5, CSS3**, SCSS, Bootstrap, Responsive Web Design.
- **Backend & APIs:**
 - **Node.js, PHP, REST APIs**, API Integration, Socket.io, CRUD Operations.
- **Databases:**
 - **MySQL**, MongoDB, Database Design, Query Optimization, Data Modeling, Schema Management.
- **Cloud & Infrastructure:**
 - AWS, EC2, Linux (Ubuntu/Debian), Docker, Virtual Machines (VMs), **Apache, Nginx**.
- **DevOps & Automation:**
 - Git, GitHub, GitHub Actions, Jenkins, CI/CD Workflows, Shell/Bash Basics.
- **AI-Augmented Development:**
 - **Cursor AI, Claude AI, Bolt.new**, Generative AI Tools, AI-Assisted Development, Prompt Engineering.
- **Digital Solutions & Branding:**
 - SEO, **Social Media Management, Content Creation**, Branding, Campaign Management, Digital Marketing.
- **Developer & Productivity Tools:**
 - VS Code, Postman, GitHub, Chrome DevTools, **Figma**, Notion, Obsidian, Canva.
- **Technical Documentation & Communication:**
 - Product Documentation, **Schematic Architecture Diagrams, Pitch deck Presentations**, Product Presentations.

EDUCATION:

Bachelors in Science – Computer Science (B.Sc. - CS)

2018 - 2021

VELS INSTITUTE OF SCIENCE, TECHNOLOGY AND ADVANCED STUDIES (VISTAS)

Pallavaram, Chennai, TN, IN

AREAS OF INTEREST AND DESIRED ROLES:

Passionate about Product Engineering, AI-powered applications, scalable web platforms, modern UI/UX systems. Strong interest in building impactful digital products through frontend engineering, AI-assisted development, and user-centric design. Seeking opportunities as a Full Stack AI Engineer, Frontend Engineer, Product Engineer, UI/UX Engineer, or AI Applications Engineer in product-driven technology teams.
