

ARUN KARTHIK N

Product Designer | Frontend & AI Product Developer

Designing and building digital products across UX, frontend, APIs, real-time systems and AI-assisted development.

Chennai, Tamil Nadu, India arunkarthik.n.dev@gmail.com +91 89396 85453 thearunkarthik.github.io

PROFESSIONAL SUMMARY

Product Designer and AI Product Engineer with **3+ years of experience** designing digital products and shipping them to production. Takes features from requirement and user flow through wireframes, prototypes and design systems, then builds them in **Angular, TypeScript and React** against REST API and WebSocket services. Specialized in real-time monitoring dashboards, analytics and device-management consoles for enterprise and **IIoT** platforms — and in applying **generative AI and AI-assisted development** with structured prompt engineering to compress prototyping and delivery cycles. Comfortable owning the full path from Figma file and communicating design rationale to product and business stakeholders.

CORE COMPETENCIES

Product Design · UI/UX Design · User Flows & Wireframing · Prototyping · Interaction Design · Design Systems · Responsive Web Design · Component Libraries · Frontend Engineering · React · Angular · TypeScript · WordPress Development · Data Visualization · Generative AI · Prompt Engineering.

PROFESSIONAL EXPERIENCE

UI/UX Developer — Product Design & Frontend Engineering

Apr 2023 – May 2026

Niraltek Solutions Private Limited

Chennai, TN, India

- Owned product design end to end for enterprise and IIoT web products — gathered requirements with product and operations stakeholders, mapped user flows, and delivered wireframes, interactive prototypes and responsive production-ready interfaces.
- Established and maintained a **reusable design system** of components, layout rules and interaction patterns, standardising dashboards, device-management and analytics views and design work on every new module.
- Engineered the interfaces I designed in **Angular and TypeScript** with SCSS and modern JavaScript, applying **React** for component-driven work, and removing design-to-development handoff loss by owning both sides.
- Built real-time analytics and monitoring visualisations with Chart.js, NgX-Charts and PrimeNG, turning raw industrial telemetry into views non-technical operators could act on without training.
- Introduced **AI-assisted development** into the team's workflow using Claude, Cursor and Bolt.new with structured prompt engineering, accelerating UI scaffolding, refactoring and documentation and shortening prototype turnaround.

Document Specialist — Visual Communication

Jun 2022 – Jan 2023

RR Donnelley — (Boston Consulting Group)

Chennai, TN, India

- Designed consulting presentation decks, business reports and technical documents for global enterprise clients, applying grid systems, typographic hierarchy and strict brand compliance.
- Restructured dense business and financial content into clear visual narratives — the discipline now used to argue documentation design decisions to clients.
- Delivered client-ready documents under short turnaround windows while holding formatting accuracy and quality standards across high-volume requests.

FLAGSHIP PRODUCT PROJECT

DevsBot — IIoT Smart Energy & Device Monitoring Platform

Apr 2023 – May 2026

Product Design · UX/UI · Angular · TypeScript · Node.js · REST APIs · WebSockets · MySQL · Chart.js · Docker · AWS EC2

- **Design:** Ran product design end to end — user flows for monitoring, configuration and alerting; wireframes and prototypes reviewed with operations users; a grid-based dashboard system that stayed legible at high data density on desktop and tablet.
- **Visualisation:** Designed and implemented energy and performance analytics views with Chart.js, NgX-Charts and PrimeNG, including drill-down from fleet overview to individual device history.
- **Deployment:** Containerized and deployed the application on AWS EC2 and on-premise Linux servers, accessing and managing Linux virtual machines through **SSH/PuTTY** and maintaining deployments from a single codebase.

WEB DEVELOPMENT & CMS PROJECTS

Websites & Landing Pages

Apr 2023 – May 2026

HTML5 · CSS3 · JavaScript · WordPress · CSS Media Queries · Mobile Responsive · SEO

- Designed and hand-coded responsive marketing websites and **landing pages** in semantic **HTML5**, **CSS3** and **JavaScript**, built mobile-first with **CSS media queries** and fluid layouts that adapt cleanly across mobile, tablet, laptop and large-desktop breakpoints.
- Built and customised **WordPress** sites covering both static brochure pages and dynamic, content-managed pages — theme customisation, reusable page templates, plugin configuration and client-editable content structures handed over.

TECHNICAL SKILLS

Product Design	UI/UX Design, User Flows, Wireframing, Prototyping, Interaction Design, Design Systems , Component Libraries, Responsive & Adaptive UI, Multi-Device Layouts, Information Architecture, Schematic Architecture Diagrams
Design Tools	Figma , Adobe XD, Adobe Illustrator, Adobe Photoshop, Canva
Languages & Web Technologies	TypeScript , JavaScript (ES6+), SQL, PHP, HTML5, CSS3, SCSS
Frontend Engineering	React , Angular , RxJS, Component Architecture, State Management, Bootstrap, PrimeNG, Responsive Web Design , CSS Media Queries, Flexbox & CSS Grid, Mobile-First Development
CMS & Web	WordPress , Elementor, Theme Customisation, Static & Dynamic Pages, Landing Page Development , Semantic HTML, SEO-Friendly Markup, Cross-Browser Compatibility
Backend & APIs	Node.js, Express, REST API Design & Integration, WebSockets /Socket.io, Authentication Flows, Postman
AI & AI-Assisted Dev	Generative AI , Prompt Engineering , AI-Assisted Development, AI Prototyping, Claude, Cursor, Bolt.new, Copilot, Codex
Databases & Data Viz	MySQL, MongoDB, Chart.js, NgX-Charts, Analytics Dashboards, Real-Time Telemetry
Cloud & DevOps	Docker , AWS EC2, Linux (Ubuntu/Debian), Nginx, Apache, Git /GitHub, GitHub Actions, Jenkins, CI/CD Workflows

EDUCATION

Bachelor of Science (B.Sc.), Computer Science

2018 – 2021

Vels Institute of Science, Technology and Advanced Studies (VISTAS) — Chennai, TN, India
